

# **U.S. SUBMERGENT**

---

## **TECHNOLOGIES**

### **Hi, Friend!**

We're still grinning from ear to ear over our new name. What's more — this week, we will complete our first job as U.S. Submergent Technologies.

### **Safer, Quicker, Cheaper, Stronger**

U.S. Submergent Technologies is currently performing sand and grit removal at a wastewater treatment plant in Orlando, FL, which requires confined space entry.

The USST crew is removing material from two clarifiers at the plant. Both are 120 feet in diameter and 16 feet deep. Approximately 120 tons of sand and grit has been removed from Clarifier 1.

"We performed a confined space entry, which includes constant air quality monitoring," said Paul Del Favero. "Fall protection is being used as well while on the catwalk inside the tank."

The crew began work on Clarifier 2 this week, running the Model 949 and Model 934 trucks simultaneously during the project.

"We have been using our proprietary equipment for the cleaning of this tank," Del Favero said. "It's been a real team effort."

USST expects to complete the cleaning of clarifier 2 this week.

## IN THE USST LIMELIGHT: Randy Cordrey

Say hello to Randy Cordrey, our business development manager. Our team had the pleasure of meeting Randy at the 2016 [Florida Water Resources Conference](#). We liked him so much we asked him to join our sales team. Read on to find out what makes Randy tick.

**Hometown:** Washington, D.C.

**Family:** My wife, Lucy, and my daughter, Jennifer.

**Pets:** A husky named Sierra.

**Hobbies:** Golf, basketball and outdoor sports.

**Role model:** Tiger Woods.

**First job:** Newspaper route at age 14.

**Lesson from mom that I still live by:** My mother always said to be nice to people.

**Proudest accomplishment:** When I was 11 years old, I pitched a perfect game — it felt awesome.

**Favorite movie:** Field of Dreams.

**No. 1 place I'd like to visit:** My wife tells me "You have to go to Paris." It's on my bucket list to take her.

**The only person I'd want to be stranded with on a deserted island:** My wife.

**If someone handed me \$1 million:** I'd invest.

**If I were a super hero, my special power would be:** Professional golfer.

**My motivation to work safe:** My motivation is to see my family every night.

**What I like best about USST:** The people.

**My best friend would describe me as:** Hardworking, dedicated, integrity.

**Song title that describes my life:** "September" by Earth, Wind & Fire

**One word that describes my dancing ability:** Smooth.

## I Scream, You Scream, We All Scream for Ice Cream

It seems our three musketeers — Aaron Hood, Matt Hughes and Paul Del Favero — have a sweet tooth for double scoop waffle cones and ice cream sandwiches. (And we don't blame them. In fact, they're making us hungry!) We're proud to call this trio part of our USST crew and to know that even when they are off the job site and taking a break, they are still practicing safety by wearing their seat belts. Way to go guys! Now pass us that ice cream! 🍦

## Next Stop: Florida Water Resources Conference

**2017** Join the U.S. Submergent Technologies team for the **Florida Water Resources Conference** April 23-26, at the **Palm Beach County Convention Center**.
