*Office of the Mayor*

*Clerk's Office*

To Whom It May Concern,

Polston Applied Technologies removed more than 35 cubic yards of accumulated material (sand and grit) from the bottom of our wastewater treatment plant while it remained in operation using their Polston Process.

We are extremely pleased that this material was able to be removed. We are not aware of any other group that is capable of doing this type of work.

We are available to speak with anyone considering them for similar (submerged while operating) type work. Their crew was outstanding to work with. If you would like to speak with me directly Please contact me at 386-935-1146.

Sincerely,

A handwritten signature in blue ink that reads "Robbie Lee Mayor". The signature is written in a cursive style.

Robbie Lee  
Public Works Supervisor
