## Splitter Box Cleaned While in Full Operation

**22-Cubic Yards of Sand Removed in Central FL**

Using USST's unique, GritGone Process®, the crew was able to clean a splitter box while it remained online and no confined space entry was necessary. Find out how USST accomplished this challenging feat.

## Limiting Time in the Tank

**Confined Space Entry in the Wastewater Industry**

Confined spaces can be deadly. In the wastewater industry, there are many situations that can require confined space entry including wet wells, digesters, or aeration basins with high tank walls. USST's capabilities have the potential to reduce the amount of time, risk, and manpower spent in confined space required to get the job done.
